

ADDY MACHINERY

Remaining Showroom Specials!!

Thanks to the tremendous response we received from our valued customers we only have a few secondary process and workholding items that remain in our showroom. Final markdowns have been applied to these remaining items.

In addition, if you missed this promotion originally and are interested in an item that is no longer in our inventory, there are still opportunities for savings. Please contact Gary Reed in the Tooling and Accessories Department to discuss your specific needs or to receive a quote on the remaining showroom merchandise.
