

Addy Machinery Training Disclaimer

Dear Valued Customer,

Thank you very much for your interest in Addy supplied training programs. To avoid any confusion regarding the various programs, please read the section of this document that applies to your particular situation.

Owners of Advantec Machines (Kentucky Built Machines) That Have Just Been Installed

- 1) Addy Machinery can provide free operator training for any Kentucky built Mazak machine.
- 2) The time period in which this free training can be obtained must be within 90 days of the machine's sign off date.
- 3) The training must take place at the Addy Machinery Training Facility.
- 4) Training at Addy Machinery will be conducted during one of the regularly scheduled training classes. See the published training schedule for availability.
- 5) Each student that will be attending must register individually as space for each class is limited.
- 6) Each machine purchased qualifies a company to send up to (2) students to attend (1) free training course at Addy Machinery.

Owners of Advantec Machines (Kentucky Built Machines) That Have Been Installed Over 90 Days

- 1) Addy Machinery can provide operator training for any Kentucky built Mazak machine at our in house training facility.
- 2) Training at Addy Machinery will be conducted during one of the regularly schedule training classes. See the published training schedule for availability.
- 3) Each student that will be attending must register individually as space for each class is limited.
- 4) The cost per student for a particular class is provided during the enrollment process.
- 5) A purchase order to cover the cost of a training class must be issued within two weeks of a student's enrollment.
- 6) On-site training for Kentucky built machines is also available for purchase. Please contact Addy Machinery for details.
- 7) Please note, accumulated Mazak training credits cannot be applied to cover the cost of an Addy supplied on site or in house training course. For customers who wish to take advantage of their Mazak training credits, please visit the following website: www.mazakusa.com/learning

Owners of Cybertec Machines (Japan Built Machines)

- 1) Addy Machinery can provide operator/programming training for select Cybertec Mazak machines. Please see the published training schedule for details.
- 2) Training at Addy Machinery will be conducted during one of the regularly scheduled training classes. See the published training schedule for availability.
- 3) Each student that will be attending must register individually as space for each class is limited.
- 4) The cost per student for a particular class is provided during the enrollment process.

- 5) A purchase order to cover the cost of a training class must be issued within two weeks of a student's enrollment.
- 6) On-site training for certain Cybertec machines is also available for purchase. Please contact Addy Machinery for details.
- 7) Please note, accumulated Mazak training credits cannot be applied to cover the cost of an Addy supplied on site or in house training course. For customers who wish to take advantage of their Mazak training credits, please visit the following website: www.mazakusa.com/learning

Classes need a minimum of 2 students and a maximum of 6.

Class dates are subject to change. If a class is cancelled, you will be notified 1 week prior to start date.

Please contact Tom Oliver at Addy Machinery with any questions regarding Addy supplied training.
